

Flower Tent Program

EPM deploys flower tents nationwide as one of our ancillary income programs. Each flower tent location acts as a temporary pop-up garden center on a given property. Generate seasonal ancillary revenue across a portfolio while providing a convenient shopping experience for the local community and patrons.

- Create Short Term Seasonal Revenue
- Program Implementation and Management at **No Expense!**
- Rent Collection, Insurance, and Maintenance handled by EPM
- Capitalize on increased holiday traffic (Easter, Mother's Day, etc.)
